## GENERAL INFORMATION

### A. INTRODUCTION OF VIET GARDEN

VIET GARDEN has been remarkably established on the date of Vietnam officially joined the World Trade Organization – WTO and being a member of HUNTER INDUSTRIES – USA to exclusively distribute the most innovative irrigation equipments into Vietnam territory.

As one of the world's leading manufacturers of irrigation equipment for the landscape and golf course industries, Hunter has enjoyed a well-established reputation as the innovation leader in irrigation. We continue to focus on the needs of the irrigation professional, just as we have every day since being founded 30 years ago as a small 'start-up' by industry pioneer.

As the innovation leaders, Hunter holds more than 250 product patents and 40 trademarks. Since then, Hunter has developed more than 1,000 innovative products that meet the needs of professional installers worldwide.

From the beginning, Hunter's corporate strategy has been to focus predominantly on providing the highest levels of value and service to the professional. One result of this focus is a worldwide distributor network spanning about 100 countries that is uniquely qualified to serve contractors and ultimately, end-use consumers.

Hunter Industries has also introduced a line of sensors that gauge inclement weather and prevent sprinklers from running when conditions are not optimal. For example, an automatic sprinkler system with a Hunter sensor will shut off when it is raining, excessively windy or freezing.

Hunter produces a full range of water-efficient products for residential and commercial use including golf-course, stadium, park, restaurant, hotel and resort, industrial zone...

Following is outstanding distributors of HUNTER INDUSTRIES in Europe market (United Kingdom, Italy) and Asia market (China, India, Vietnam).
